

STEM Study Skills Tutor Role Description & Person Profile

Function of the role

To work as part of the Non-Medical Help Scheme by providing study skills support to a caseload of students who have been allocated a Study Skills Tutor as part of their support with their study. This mainly includes students who have specific learning difficulties, ADHD, autism, and mental health conditions.

Duties and responsibilities to the student:

- Provide 1-1 study skills tuition to enable the student to develop independent learning strategies
- Help student develop the underpinning skills needed for studying STEM subjects
- Adapt tuition approaches in response to the individual requirements and circumstances of each student
- Support the student meeting the requirements of the academic environment at University in STEM subjects at undergraduate and postgraduate level
- Support the student in managing the demands placed upon them with respect to coursework, deadlines, processes and procedures
- Support the student with problem solving, identifying and referring to other key services within and external to the University
- Help the student identify issues causing concern and support them with problem-solving
- Establish and maintain clear role boundaries
- Meet at designated times and places with the student

Duties and responsibilities to the Accessibility & Disability Resource Centre (ADRC):

- Complete relevant administrative tasks/documentation associated with specialist 1:1 support, particularly Independent Learning Plans, termly reviews with students, and regular feedback to the ADRC
- Maintain the ADRC's confidentiality policy
- Attend and participate in study skills monitoring on an annual basis, including lesson observations for quality assurance purposes
- Attend training sessions as required
- Regularly review/self-evaluate the effectiveness of support provided
- Maintain the confidentiality of your colleagues and students when using online resources
- Maintain continuing professional development (CPD)
